

Really Great Decodable Readers

Kindergarten Set

The Really Great Decodable Books from Really Great Reading are beautifully illustrated decodables to help students practice the phonics concepts they are learning in their lessons. The Really Great Countdown Decodables set includes 21 illustrated decodable books that align to the most common phonics concepts taught in kindergarten. These decodables are appropriate for kindergarten students on grade level and for older students in need of intervention. They can be purchased separately or can be used as a complement to Really Great Reading's Countdown program or to any kindergarten foundational skills instruction.
